X-WAVE™

**AESTHETIC  
TREATMENT**

FROM A WHOLE  
NEW PERSPECTIVE

# MASTERFUL TECHNOLOGY

USING THE POWERFUL ENERGY  
OF ACOUSTIC WAVES, X-WAVE  
ACHIEVES THE BEST RESULTS  
IN NON-INVASIVE TREATMENTS OF  
CELLULITE, SCARS AND STRETCH  
MARKS.

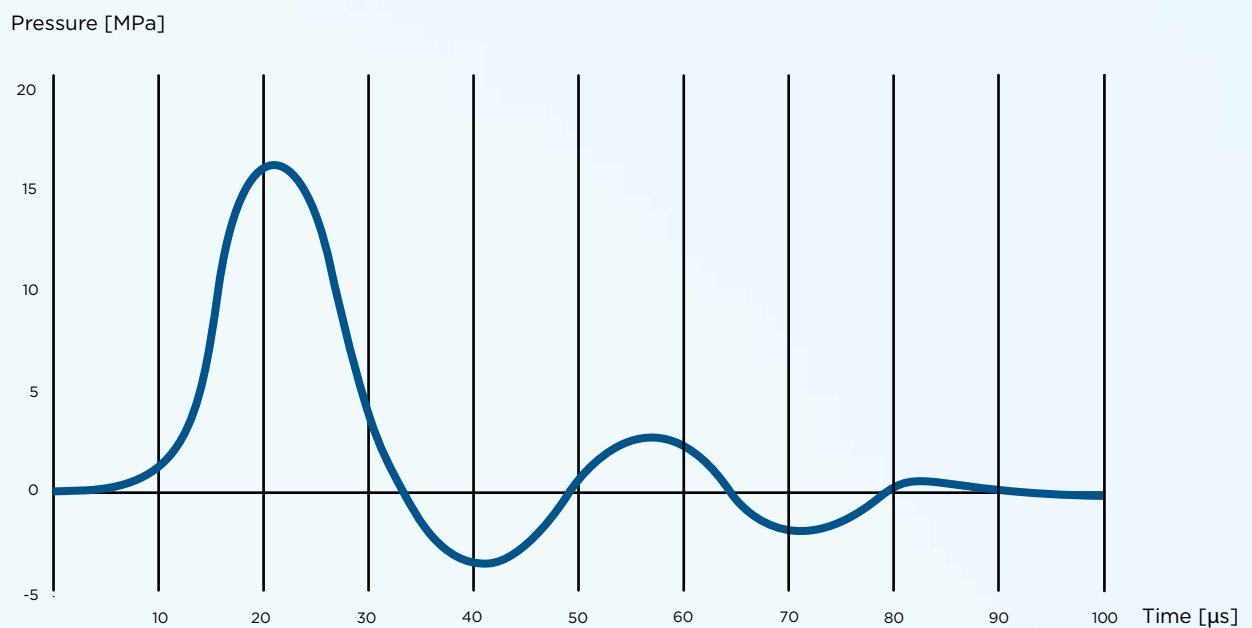

# THE POWER OF VIBRATION

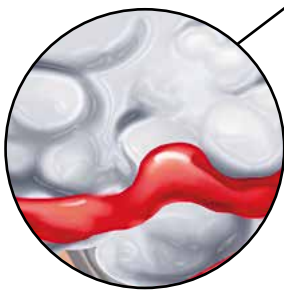

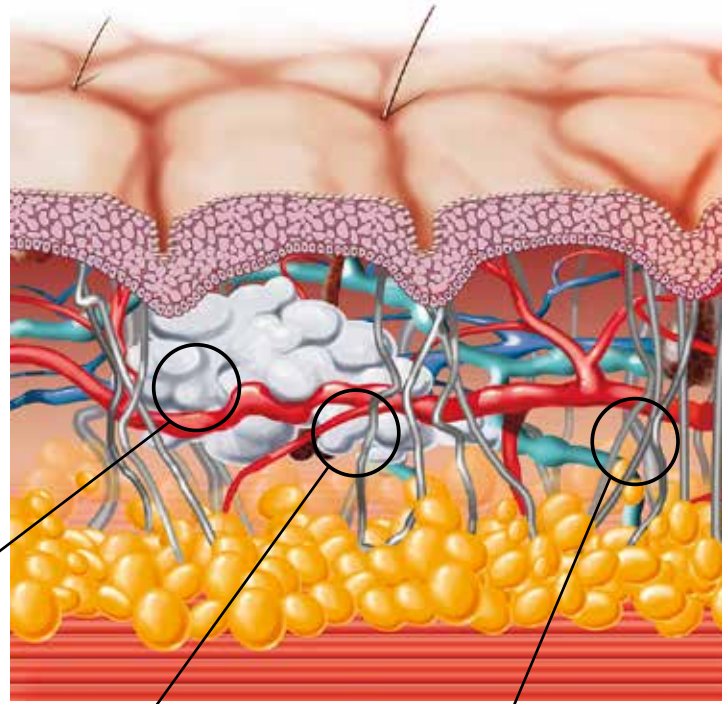

Acoustic waves are extremely strong non-focused sound pulses that induce vibration within the body. The energy has been specially developed to avoid any skin damage while penetrating into the treatment area.

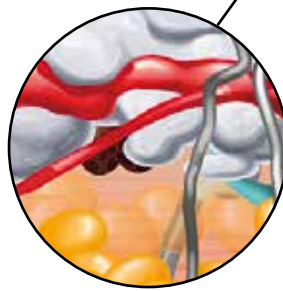

# DISCOVER STUNNING

**BEFORE**

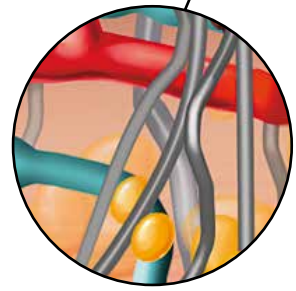

## **BLOOD FLOW RESTRICTION**

Capillary system is constrained by hypertrophic fat structures

## **WASTE ACCUMULATION**

Waste product build-up provokes alterations in connective tissue

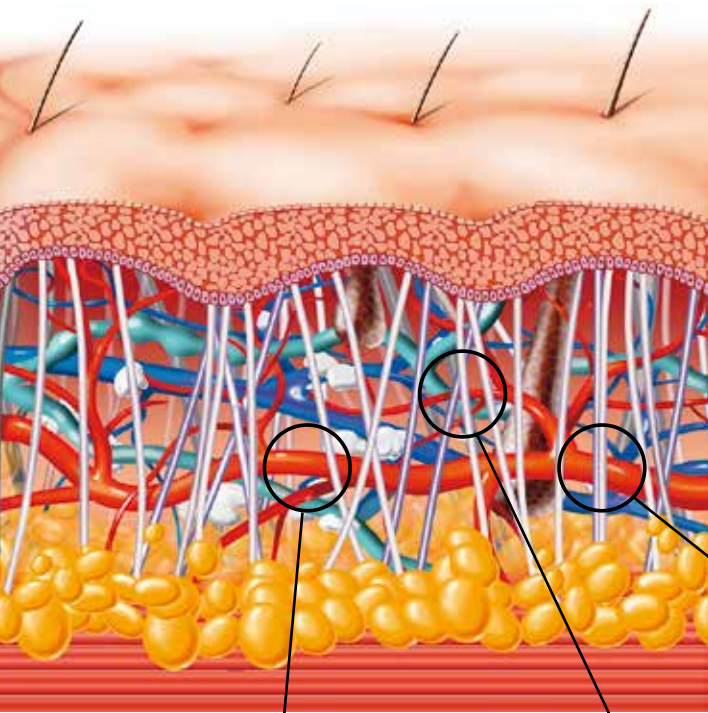

## **COLLAGEN FIBROSIS**

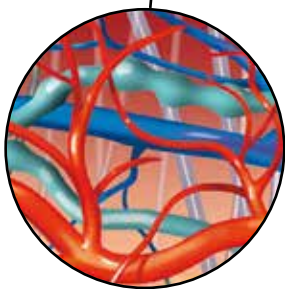

Hypertrophic collagen and elastin fibers dimple the skin surface

# X-WAVE EFFECTS

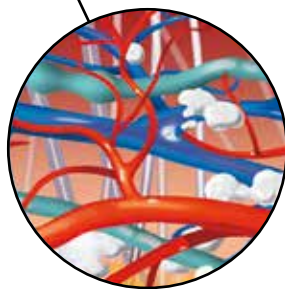

**AFTER**

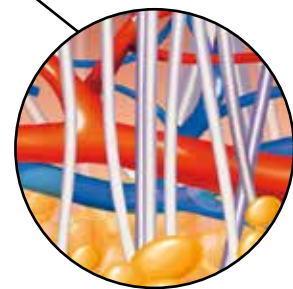

## **INCREASED BLOOD SUPPLY**

Growth of new capillaries increases microcirculation, oxygen supply and metabolic rate in affected area

## **WASTE ELIMINATION**

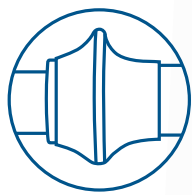

Mechanical stimulation of lymphatic vascular system leads to reduction of edema and better elimination of the lipids from the subdermal fat cells

## **COLLAGEN REMODELLING**

Acoustic pulses induce proliferation of fibroblasts. This process leads to the creation of a new thickened band of collagen
